"The Impact of Mobile Money on Small Business Growth in Kampala"

Abstract:

This study investigates how mobile money services influence the growth trajectories of small businesses in Kampala. Using a mixed-methods approach, data will be collected through surveys and interviews from 200 small business owners. The findings aim to inform policymakers and financial service providers on enhancing mobile financial services to support economic development.

Introduction and Background:

The advent of mobile money has revolutionized financial transactions in Uganda, particularly in urban centers like Kampala. While previous studies have highlighted the convenience and financial inclusion benefits, limited research exists on how mobile money directly affects small business growth. This study seeks to fill this gap by examining the relationship between mobile money usage and business expansion.

Statement of the Problem:

Objectives:

- To assess the extent of mobile money usage among small business owners in Kampala.
- To analyze the relationship between mobile money usage and business growth indicators.
- To identify challenges faced by small business owners in using mobile money services.

Research Questions:

- What is the level of mobile money utilization among small businesses?
- How does mobile money usage influence revenue and customer base growth?
- What barriers hinder effective use of mobile money services?

Methodology:

A cross-sectional survey will be conducted among small business owners in Kampala. Stratified sampling will ensure representation across sectors. Data will be collected through structured questionnaires and follow-up interviews, with data analysis performed using SPSS for quantitative data and thematic analysis for qualitative insights.

Ethical Considerations:

Participants will provide informed consent, ensuring confidentiality and voluntary participation. Ethical approval will be sought from Makerere University's research ethics committee.

Expected Outcomes:

The study expects to demonstrate positive correlations between mobile money usage and small

business growth, providing evidence-based recommendations for stakeholders.
